Volume 5 | Issue 1 | February 2015

## Focus on the Energy Community | 16

Mandated by the Ministerial Council the High Level Reflection Group chaired by **Jerzy Buzek** makes important proposals for **An Energy Community for the Future** to be adopted in 2015

**Alberto Quintavalla** considers the weak **dispute settlement procedure in the Energy Community** as one of the major obstacles to implementing the *acquis communautaire* | 28

## Designing the European Energy Union What's next for security of energy supply? | 38

**Simone Tagliapietra** estimates that the only forward seems to be differentiated integration allowing some Member States to advance immediately without waiting for the others

## Gas Trades across the Interconnector Pipeline between Belgium and the UK: do gas flows follow price spreads? | 45

"Do gas flows follow price spreads?" **Chris Cuijpers** and **Andres Tirez** ask, demonstrating that there are numerous other factors, commercial as well as technical

## EU Energy Efficiency – The Austrian solution to comply with efficiency targets | 62

**Bernd Rajal** shows that many legal questions may arise in connection with the obligations imposed on large enterprises and energy suppliers

|                 |                                                                                                                                                                                                                                                                                   |    |
