

# European Energy Journal

15

Volume 5 | Issue 2 | May 2015

## Tools and challenges of gas network investment in the EU | 12

**Michelle Hallack** and **Miguel Vazquez** plead to bridge the informational gap between shippers, Transmission System Operators and policy-makers

## New state aid guidelines for renewable energy discourage competition, green energy and energy security | 22

**Randy M. Mott** vigorously accuses the European Commission to favour the large conventional utilities by favouring auctions against feed-in tariffs and certificate system

## Moving towards an Energy Union - Recommendations from the IEA in-depth review of the EU | 37

**Sylvia Beyer** is glad to note how the European Union's new energy roadmap and vision reflect many of the recent recommendations from the International Energy Agency

## Standardization and common Grid Codes forming the technical framework for European wide HVDC grids | 43

**Schettler/Dragon/Imgrund/Marten/Westermann/Whitehouse/Winter** explain the network codes and technical standards needed for High Voltage Direct Current transmission in the perspective of large scale renewable energy sources

Law making	State of play and perspectives of the negotiations in the European institutions on pending and forthcoming legislative proposals	3
Case law	<b>C-359/11 and C-400/11</b> ECJ expands consumers' information concerning any changes to prices under gas and electricity supply contracts	7
Book reviews	<b>V. du Castel</b> , La sécurité des approvisionnements énergétiques - Enjeux et défis pour l'Union européenne; <b>F. Bafail, F. Fodor and D. Le Roux</b> , Accès à l'énergie en Europe - Les précaires invisibles	9
Country reports	<b>U.S.:</b> Energy tycoon is changing world's energy map; <b>Switzerland:</b> Developments under the CO <sub>2</sub> emission reduction regulation	59
On the scene	The dynamics between European Commissioners and Vice-Presidents	66
