

European Energy Journal

18

Volume 6 | Issue 1 | March 2016

An Agreement which is a step in the right direction but which has not solved all the problems of climate change | 16

Experienced trade negotiator **Roderick Abbott** explains the rather lengthy and confusing text of the COP21 conference in general and from a European perspective, in a question and answer format

Energy Community and Energy Union

- Janez Kopic:** Energy Community and Energy Union – one step forward, one step back? | 22
- Dirk Buschle:** The enforcement of European energy law outside the European Union – Does the Energy Community live up to the expectations? | 26
- Brigham A. McCown:** An Energy (Dis)Union – Challenges and opportunities in Europe's emerging energy market | 45

Eastern Mediterranean gas: the Energy Union's next frontier | 57

Constantine Levoyannis demonstrates how the 'Zhor' discovery makes the East Med a vibrant gas market that should become a focal point of the EU's diversification policy

Who are the NEMOs for day-ahead and intraday market coupling? | 62

Régine Feltkamp and **Gerrit Hendriks** present the new 'Nominated Electricity Market Operators' whose tasks were previously performed by the so-called power exchanges as voluntary co-operations

Law making	State of play and perspectives of the negotiations in the European institutions on pending and forthcoming legislative proposals	3
Case law	ECJ upholds the Commission's regulation on testing standards for the energy labelling of vacuum cleaners; Ministerial Council of the Energy Community suspends voting rights of Bosnia and Herzegovina	8
Book reviews	Richard Youngs, Climate change and European security	15
Country reports	Austria: Energy efficiency measures – reporting, trading, transfer, administrative penalties and their passing on to consumers	66
On the scene	Strategies and emotions at COP 21	68
