

# European Energy Journal

# 3

Volume 2 | Issue 2 | april 2012

## Can Europe retain its domestic refining industry? | 21

**Isabelle Muller** calls for a realistic debate on the role of refining for security of supply and for the mobility of goods and persons at the heart of the single market.

## Building Gas Markets: US versus EU, market versus market model | 37

Explaining how network services are coordinated through long term contracts in the USA whereas the EU socializes the costs, **Miguel Vazquez, Michelle Hallack and Jean-Michel Glachant** develop a European Gas Target Model.

## Appraisal of the Commission's Energy Roadmap 2050 | 48

**Leonardo Meeus** emphasizes that today's investment decisions are already shaping the energy system in 2050 and welcomes the intention to develop an intermediate framework for 2030.

## A primer on renewable energy in India: a legal perspective | 61

**Arkodeb Sinha** points out the importance of power and energy in contributing to the growth and development of a country like India.

<b>Law making</b>	State of play and perspectives of the negotiations in the European institutions on pending and forthcoming legislative proposals	<b>3</b>
<b>Case law</b>	<b>Air Transport Association of America:</b> Emission Trading Scheme applies to aviation; <b>Salemink:</b> EU law applies to the continental shelf	<b>9</b>
