

# European Energy Journal

4

Volume 2 | Issue 3 | July 2012

## Focus on Climate Change | 3

European Commissioner **Connie Hedegaard** claims a sustainable global growth model and affirms that **Climate protection is not DEindustrialisation but REindustrialisation.**

**Jos Delbeke's** recent testimony at the US Senate demonstrates the objectives and effects of the EU's **Emission Trading System** as a potential building block for a future international agreement. | 24

## A NEW EU Gas Security of Supply Architecture? | 32

Drawing the conclusions of four dedicated workshops **Jacques de Jong, Jean-Michel Glachant, Manfred Hafner, Nicole Ahner** and **Simone Tagliapietra** recommend a new approach distinguishing clearly between the short-term vision up to 2020 and the long-term vision beyond 2020.

## Public Support to Low-carbon Innovation: Grants for All? | 41

**Sophia Ruester** and **Luis Olmos** focus on research, development and demonstration activities that belong to the early, highly risky stages of innovation and, thus, need direct public support.

## The Adoption of Network Codes in the field of Energy: Availability of Judicial Review in a Multi-Stage Procedure | 47

**Chara Vlachou** presents the *European network* of system operators, analyses the three-stage procedure for the adoption of network codes, and explores the direct and indirect means for judicial review.

Law making	State of play and perspectives of the negotiations in the European institutions on pending and forthcoming legislative proposals	9
Case law	The CJEU clarifies the treatment, under state aid law, of power purchase agreements which are typical for energy projects financed by private companies.	15
Book reviews	<i>Jean-Arnold Vinois</i> , The Security of Energy Supply in the European Union; <i>Marcel Viëtor</i> , Energiesicherheit für Europa, Kernenergie und Erdgas als Brückentechnologien	21
Country reports	<b>United Kingdom</b> : Key law and policy developments in the last six months for Low Carbon Power Generation, Renewable Energy, Security of Supply, and Energy Efficiency and Affordability	63
On the scene	Eurocrats between myth and reality	67
